

Out of Warranty Repair Program

McDantim, Inc. takes pride in manufacturing a reliable, accurate Blender that lasts for years beyond our warranty. All Trumix® Beverage blenders have a Five Year Limited Warranty which covers out of specification gas blends and leaks. While we have blenders going strong from our early days, we continue the support of our products past their warranty with our Out of Warranty Repair program. This sheet explains the different tiers of our repair program, available to distributors and end-users at the same price. Blender contamination is not covered by warranty.

Tier 1 - Evaluation

Work Performed & Additional Benefits + **90-Day Warranty**

- Leak check.
- Blend check; can include blend change.
- Panel cleaned to best possible condition & relabeled.

Tier 2A - Blending Assembly Refurbishment

Work Performed & Additional Benefits + **1-Year Warranty**

- Leak check.
- Blend check; can include blend change.
- Blender rebuild to current specifications.
 - Replacement of internal elastomers and critical parts.
- Retune to current specifications.
- Panel cleaned to best possible condition & relabeled.

Tier 2B - Panel Assembly Refurbishment

Work Performed & Additional Benefits + **1-Year Warranty**

- Leak check.
- Blend check; can include blend change.
- Panel components replaced to current specifications.
 - Replacement of components from tubing through hosebarbs.

Tier 3 - Full Panel Refurbishment

Work Performed & Additional Benefits + **2-Year Warranty**

- Combined refurbishments of Tier 2A & Tier 2B.

Extended 3-Year Warranty

Additional option; Available only for Tier 3 work.
